Profile Summary

Dr. Uttam Sharma is an accomplished academic and technologist with a Ph.D. in Computer Science and Engineering and over four years of experience in Academia and Software Development. Currently serving as an Assistant Professor in the Department of Information Technology at SVPUAT, Meerut. He is a UGC-NET qualified professional. He has previously served as a Junior Research Fellow at IIT Indore, where he contributed to a DST-sponsored project focused on the age-invariant nature of the human ear. His research interests span across Human-Centered Computing, Biometric Systems & Security, and Pattern Recognition.

Dr. Sharma holds multiple Salesforce certifications, including Certified Developer, AI Specialist, and Administrator. His technical expertise includes Apex, VisualForce, Lightning Web Components (LWC), Java (SE & EE), and a strong background in AI and ML technologies.

He has authored several research papers published in SCI/Scopus-indexed journals, contributed book chapters with renowned academic publishers, and presented his work at reputed conferences. He also published a patent for an AI-driven traffic control system.

In addition to his academic achievements, Dr. Sharma has played a key role in large-scale software implementations, such as the NABH, GE Healthcare, and UNITOUCH.

Dr. Sharma is passionate about advancing digital education and applying AI across multidisciplinary domains to drive innovation and societal impact.

Areas of Interest

- Biometric Systems & Security
- Computer Vision
- Software Engineering
- IoT & Smart Agriculture Applications
- Salesforce Development
